

# SUPER 7 & 5+ PATTERNS

Frizair is a leading manufacturer of Fin and Tube heat-exchangers for almost 60 years. Established in 1957, Frizair is one of the oldest manufacturers of air-conditioners, heat exchangers and parts in India.

Frizair products are manufactured at its fully automated state-of-the-art facility.

Frizair's customers include global leaders and large multi-national companies.

Frizair keeps innovating and introducing new products regularly.

Frizair has introduced many "Firsts" in India including heat exchanger designs and patterns.

The SUPER 7 and 5+ PATTERNS offer many advantages and savings. Both are ideal to meet the new requirements of the market.

The SUPER 7 and 5+ PATTERNS offer cost effective solutions, low volume and weight, high efficiency, reduced refrigerant volumes and low cost.

PATTERN	SUPER 7	5+
Tube diameter	7mm	5mm
Tube material	Copper/Aluminum	Copper/Aluminium
Tube type	Plain/Inner grooved	Plain/Inner grooved
Pattern	25.4 x 22 mm, staggered	*/Staggered
No. of Rows	1 to 8	1 to 10

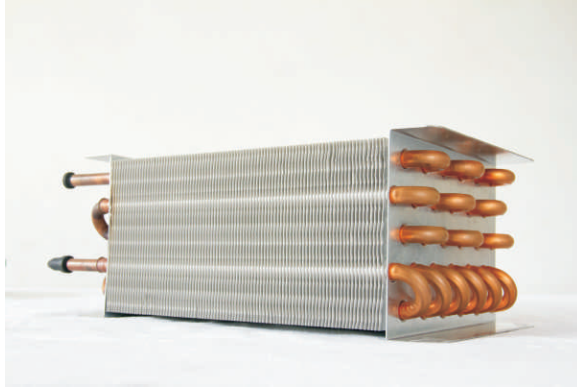

## FRIZAIR®

# SUPER 7 & 5+ PATTERNS

Copper and Aluminum tube heat exchangers available

Cost-efficient designs

Low cost

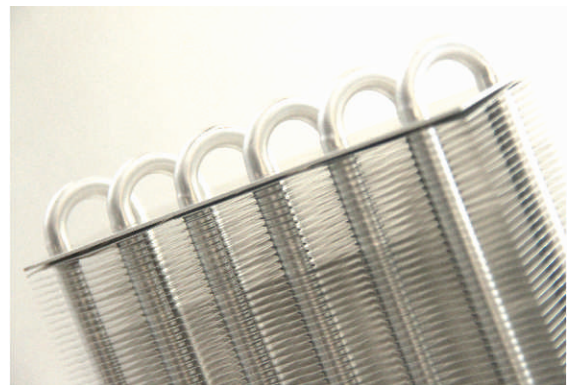

Low refrigerant volume, saves on refrigerant costs

Ideal for new refrigerants

Small size

Offers advantageous drop-in replacements for many patterns

Ideal for multiple applications
